1. Consulta 1

The screenshot shows a database query editor with a dark theme. The top toolbar includes icons for file operations, query execution, and settings. The 'Query' tab is active, displaying an SQL INSERT statement. The statement is as follows:

```
-- 01 INSERTAR PROPIETARIO  
  
INSERT INTO tourism.owners (first_name,last_name,company_name,email,phone,tax_id,address_line1,city,state,country,postal_code)  
VALUES  
( 'Rocio','Ochoa','RO Software','rocio@gmail.com','77778888','TAX001','Santiago de Maria','Usulután',  
'Usulután','El Salvador','3401');
```

Below the query editor, the 'Data Output' tab is active, showing the execution result:

```
INSERT 0 1  
  
Query returned successfully in 67 msec.
```
